PRESIDENT'S MEMORANDUM

On March 25, the American Theological Library Association was notified by Lilly Endowment, Inc. of its award of a grant of \$25,000 to the Association in support of the planned study of its fiscal and organizational management. This was a fitting response to the work of the committee which prepared the proposal, chaired by H. Eugene McLeod, and composed also of Richard Spoor, William Miller, Martha Aycok, and Robert A. Olsen, Jr. The committee has entered into an agreement with the New York management consulting firm of Peat, Marwick, Mitchell and Company to perform the study and develop recommendations for improvement. The period of study is from April 1, 1985, through October 31, 1985, with the financial and programmatic report on the project due no later than December 15, 1985.

While it was regrettable that the full \$37,000 requested was not granted, the Association is fortunate to have received this sizeable grant, which should significantly strengthen its financial and organizational management in the years ahead. In view of the reduced amount of the grant, and in order to use the funds in the most effective way possible, it will be necessary for the consulting firm to work with officers, board members, committee chairs, and other members while they are gathered in June at the conference at Drew University. This will save a great deal of money that would otherwise be spent by consultants travelling to interview officers and members. While it is regrettable to intrude on regular conference activities and/or free time, it is hoped that all will realize the overwhelming values of this approach and cooperate as fully as possible.

The Search Committee for a new Executive Secretary of the Association met May 1, 1985, at Candler School of Theology in Atlanta, Georgia. Chair Sara M. Mobley was hostess to committee members Father Simeon Daly, James Overbeck, and Rosalyn Lewis. Following the search announcement in the February issue of the Newsletter, the committee received many recommendations and applications for this important position, so crucial to the daily life of the Association. The Committee will continue its work through the annual conference at Drew University, interviewing finalists for the position, and concluding with a recommendation to the Board of Directors immediately following the conference. The five-year term will run from July 1, 1985, through June 30, 1990.

PRESERVATION BOARD REPORT

The Preservation Board at its spring meeting on April 15-16 at Princeton, New Jersey, decided unanimously that its extensive new program of monographic preservation and its continuing program of serials preservation have grown to such a magnitude that they now require the services of a full-time Director of Programs. Dr. Charles Willard, Director of the Speer Library of Princeton Theological Seminary, who has served as the part-time Director of Programs since July 1, 1984, will conclude his service with the Preservation Board as of June 30, 1985.

While the Board is now engaged in a search for a full-time Director of Programs, the new monographic preservation project is progressing. Dr. Willard has delivered a list of over 4,000 titles to Union Theological Seminary in New York, whose staff is in the process of verifying individual works as available for microfilming. When the complete list is verified, it will be sent to subscribers for their selection and ordering. The Board is also continuing its negotiations for a microfilming contract. It is expected that filming will begin soon after the signing of a contract. The Board is optimistic that a new Director will begin serving on July 1, 1985.

The Board wishes to extend its thanks to Dr. Willard not only for his service this year to the Preservation Board but for his able leadership for many years as Executive Secretary of the Board of Microtext.

John A. Bollier, Chair
Preservation Board

NORTH AMERICAN BAPTIST SEMINARY EXPANDS LIBRARY

North American Baptist Seminary in Sioux Falls, South Dakota, announces the completion of the expansion and remodelling of its Kaiser-Ramaker Library. Construction on the 8400 square foot addition began last June. Total cost of the project was approximately \$550,000. It adds much needed room for the book collection, in addition to greatly improved spaces for study, audiovisual listening/viewing, classrooms, a curriculum lab, and typing. Plans are underway to return to the library more than 6,000 volumes of older monographs and bound periodicals which were removed to storage at a nearby college some years ago. The remodelling of the existing library allows for an expanded denominational archives and rare book display, individual study rooms, a special homiletics collection area, and a room for word processing.

Much valuable assistance in beginning the planning for the building program came from the consultancy of Dr. Norman Kansfield in 1979, funded in part through an ATLA grant. Architects for the project were The Spitznagel Partners, Inc. of Sioux Falls. Formal dedication services will be held in October. George W. Lang is the Librarian.

COLLECTION EVALUATION AND DEVELOPMENT COMMITTEE REPORT

The survey of members of the Collection Evaluation and Development Section has yielded a good response and the Committee owes the Section membership many thanks for that response. (If you have yet to return your questionnaire and desire to do so, there is still time, although results are being tabulated.) At least a partial report of results should be in the mail to you prior to the June conference. Preliminary results indicate considerable work is anticipated or already under way on collection development policy statements. Remember the clearinghouse for those (c/o Sara Mobley, Pitts Theology Library, Emory University, Atlanta, Georgia 30322). When your Committee's report arrives from the ATLA Executive Secretary prior to the conference, try to give it some reflection along with any results you have received from the survey. Review the Committee/Section job description (dated June 1983). Write the Executive Secretary or me if you need a copy (my address is 200 N. Main Street, Hatfield, Pennsylvania 19440). Up to half the time at our Section meeting will be devoted to roles, responsibilities, projects, and other concerns of the Committee/Section. Michael Boddy will present the RLG/ARL Conspectus during the remainder of the time. Since the 1983 continuing education program and conference, several Section members have requested some sort of explication of the Conspectus and its possible uses by Section members and their libraries.

James C. Pakala, Chair
Collection Evaluation and Development
Committee

PUBLICATION COMMITTEE REPORT

During the annual conference, the Publication Section will meet on Thursday morning (June 27) from 10:30-12:00. Dr. Knut Dorn of Harrassowitz in Wiesbaden, West Germany, will join us for informal discussion during the Section meeting. Dr. Dorn is scheduled to speak at 9:00 a.m. that day on "Trends in Religious Publishing in Germany." There will be an opportunity at the Section meeting to pursue further any matters from the 9 o'clock talk, to ask him about his own highly internationalized book dealership, to discuss comparisons between American and European publishing in religion, and to raise other questions with him.

James Deffenbaugh, Chair
Publication Committee

STAFF APPOINTMENTS AT RELIGION INDEXES ANNOUNCED

I am pleased to announce the following staff appointments at the Religion Indexes.

Paul D. Petersen, Editor of Religion Index One (RIO), as Systems Manager. Paul has been with the Index since 1979 and has been assistant editor and editor of RIO since fall 1979.

Philip Schmitz, Assistant Editor of RIO. Phil comes to the Index from a teaching position in the Religion Department at Central Michigan University. He did his undergraduate work at Cornell University and his masters work at the University of Michigan, where he is currently completing his doctorate in the Department of Near Eastern Studies. He has editorial experience with monographic and journal literature. He has also indexed and edited for a special project on Ann Arbor newspapers for the Hatcher Graduate Library, The University of Michigan. Phil will assume his duties at the Index on June 3.

Frederick T. Custer, Editor of Religion Index Two (RIT) and Special Products. Rick joined the Index staff in the fall of 1983 as a part-time indexer. In January 1985 he was appointed as Chief Indexer for RTI. He began his undergraduate work in religious studies at Penn State and finished it at Catholic University. He has completed his M.A. at the University of Chicago Divinity School, where he is a doctoral candidate. He has worked part-time for three years at Encyclopaedia Britannica as an editorial assistant and most recently as a production control assistant.

Erica Treesh, Editor for Thesaurus and Special Products; Interim Assistant Editor for RIO. Erica has worked for the Indexes for three years as an indexer for RIT 1970-75 and RIO. In July 1984 she was made Chief Indexer for RIO. Her undergraduate work was in history and religious studies at Wichita State University. She has an M.A. degree in religious studies from the University of Chicago Divinity School and an M.A. degree from the Graduate Library School of the University of Chicago.

All of these people bring unique strengths and experiences to the Indexes. I hope you will become better acquainted with them at the annual conference.

Albert E. Hurd, Executive Director
Religion Indexes

WORK ADVANCES ON SCHOLARS' GUIDE TO CHINA MISSION RESOURCES

Work has begun on the New England section of the Scholars' Guide to China Mission Resources. When completed the Guide will include China mission materials in all fifty of the United States and will indicate what documents exist and where they are located. Librarians and archivists who would like to have their collections included should write to: China Mission Resources Project, Princeton Theological Seminary, Robert E. Speer Library, P.O. Box 111, Princeton, New Jersey 08542. Publication of the Mid-Atlantic volume of the series is expected this summer.

SOUTHWESTERN SEMINARY SHIFTS TO LC CLASSIFICATION

Following a three-month study, the A. Webb Roberts Library at Southwestern Baptist Theological Seminary in Fort Worth, Texas, ceased classifying new books for a month, then changed from the Union (Petree) classification to the Library of Congress classification. On May 1, the first truck containing 101 volumes went to the shelves bearing LC classification numbers. Between April 25 and May 8 the computer searched the OCLC archival tapes for LC classifications for the reference collection. The computer then produced new pocket and spine labels for the reference books using the check out (inventory control) number for association. At the same time the terminal display for author, title and subject entries were changed from Union to LC.

Between the end of the spring semester and the beginning of the summer semester the staff, aided by volunteers from area churches, will remove the Union pocket and spine labels from the 10,200 volumes of the reference collection, affix new LC labels and reshelve the books in LC order. If the procedure is successful the staff plans to change the commentaries to LC between the close of the summer session and the opening of the fall semester. The conversion of the entire collection is expected to require five years.

GTU BEGINS LAST PHASE OF LIBRARY CONSTRUCTION

Construction of the Graduate Theological Union Library in Berkeley, California, which was temporarily halted in 1981 after the completion of the basement and first floor, is scheduled to resume in June. Plans call for the addition of two more levels on top of the current two-story structure. Library staff will be moved to Level II, which will also be the location of the entrance to the building. There will be seating on Levels I and II for approximately 250 persons, space for more than 314,000 volumes on the open shelves, a separate reference collection, and display shelves for all 2,100 current periodicals. Moreover, there will be much more space for the display of rare books and fine arts. Level III will house part of the library administration, as well as most of the GTU administration, which is currently located in the GTU administrative headquarters on LeConte Avenue. Completion of the project is expected by the fall of 1986. John D. Baker-Batsel is the Librarian.

BIBLIOGRAPHIC SYSTEMS COMMITTEE REPORT

"Peoplenet" Survey Recently Distributed to Section Members. All members of the Bibliographic Systems Section should have recently received a survey form seeking information to be used to compile a directory of Section members. The Bibliographic Systems Committee initially distributed the survey at the last annual conference in Holland, Michigan. The recent mailing provides an opportunity to participate for those who did not attend the Holland conference and an opportunity to update information for those who did. The Committee plans to distribute the first edition of the directory at the conference in June.

The purpose of the directory is to facilitate communication among Section members, to create a kind of "peoplenet." Survey data provides a profile of a member's experience, expertise and needs. Members may consult the directory to learn, for example, about other members who use the same bibliographic utility, who catalog the same forms of material, who acquire the same monograph series, who know Hungarian, or who know something about Anglican liturgy. It will be possible to identify other members who might know the answer to a particular technical question which has arisen in daily work or to identify members who might share interest in a special project or program

Section members who have not received the survey should write to me at Andover-Harvard Theological Library, Harvard Divinity School, 45 Francis Avenue, Cambridge, Massachusetts 02138. Completed surveys should be returned as soon as possible.

Robert Ewald to Conduct Workshop on Authority Work at the Library of Congress. The Bibliographic Systems Committee assisted in arranging for Robert Ewald of the Office of Descriptive Cataloging at the Library of Congress, to lead a workshop at the annual conference. The workshop on "Authority Work at the Library of Congress" will be given on Wednesday morning at Union Theological Seminary in New York.

Mr. Ewald worked at the Andover-Harvard Theological Library, Harvard Divinity School, earlier in his career and thus brings the combined experience of working in the subject of religion and applying LC's descriptive cataloging policies. He is often the one at LC who answers inquiries concerning authorized headings and LC's rationale for them.

The workshop will include topics such as the Library of Congress' participation in national cooperative authority file programs; the Library's "Name Authorities"; how authority work is done at LC; reference sources used to establish personal names, corporate names, and uniform titles in religion; how names are qualified; and common errors and misconceptions.

The workshop should be extremely valuable to anyone doing original cataloging, especially those attempting to apply LC's rule interpretations, but it will also be valuable to anyone concerned with the way headings are established and distributed by the Library of Congress. Bring questions about particular LC headings (clear and specific documentation would be helpful), about how to research particular headings and cross references, or about any authority work issues.

BIBLIOGRAPHIC SYSTEMS COMMITTEE REPORT - Continued

Theological Subject Headings Reconsidered. The latest issue of Library Resources & Technical Services, vol. 29, no. 2 (April-/June 1985), includes an article by W. Thomas Nichol entitled "Theological Subject Headings Reconsidered." The piece is based on Mr. Nichol's doctoral dissertation which involved an extensive comparison of the Library of Congress Subject Headings (LCSH) and Catholic Subject Headings (CSH). Mr. Nichol concludes by recommending the preparation of a theological thesaurus to supplement LCSH and provide a controlled vocabulary for theological data bases, bibliographies, and other reference tools.

The Bibliographic Systems Committee is delighted to announce that Mr. Nichol will be attending the meeting of the Bibliographic Systems Section at the annual conference. A discussion is being organized on the topic "Do We Need a Theological Thesaurus?". A representative of the Art and Architecture Thesaurus (AAT), which Mr. Nichol cites as a model for a theological thesaurus, may also be participating in the discussion.

Members of the Bibliographic Systems Section should read Mr. Nichol's article to prepare for the Section meeting. If you need a copy, please write to me at the address given above.

Agenda for the Bibliographic Systems Section Meeting. The Bibliographic Systems Section will be meeting at the June conference on Thursday morning, 10:30-12:00. In addition to the discussion with Mr. Nichol, there will be reports on subject sub-divisions for theologians, theological libraries and union lists of serials, and the Boston Theological Institute (BTI) Union List of Serials. Joyce Farris, ATLA liaison to the ALA/RTSD Committee on Cataloging: Description and Access, will be available to answer questions on the activities of that Committee (for Joyce's latest report, see the ATLA Newsletter, vol. 32, no. 3, February 16, 1985). She may also need to poll the membership regarding issues to be considered at the CC:DA meeting in July. Consideration will be given to a proposal for including individual library profile data in the Proceedings. Such data would indicate bibliographic utilities, regional networks, union lists, classification systems, etc. for ATLA libraries. The membership also needs to evaluate the utility of the Section publication "Current Subject Headings in the Field of Religion" and decide whether or not to continue that publication. Members with other suggestions for the agenda please write or call me (617/495-5910).

Bibliographic Systems Committee

THE JOURNAL OF WOMEN AND RELIGION PUBLISHED AT GTU

The Journal of Women and Religion is beginning its fourth year of publication by the Center for Women and Religion, an affiliate of the Graduate Theological Union in Berkeley, California. Published twice a year, the Journal focuses on issues of women in theology, church history, and current religious life and practice. Themes of recent issues have included worship and spirituality, women and ministry, and women's global connections. Each issue is produced by a guest editor drawn from the GTU women faculty and other women scholars. The Journal is available by subscription at \$12.50 a year. A limited number of back issues are available at \$3.50 a copy. The Center intends to negotiate for inclusion of the Journal in the ATLA microfilm serials program. Subscriptions and orders for back issues should be directed to: Ms. Chris Smith, Managing Editor, Journal of Women and Religion, The Center for Women and Religion, 2465 LeConte Avenue, Berkeley, California 94709. Checks should be made payable to: The Center for Women and Religion.

RESULTS OF COMPUTER USE SURVEY REPORTED

ATLA librarians responded in impressive numbers last summer to two brief surveys of the use of computers in theological education conducted by Donald N. Matthews, Librarian of the Lutheran Theological Seminary in Gettysburg, Pennsylvania. Of the 130 surveys sent June 7, 1984, 121 were returned. A follow-up instrument sent July 10, 1984, brought 49 responses to 55 requests for clarification of data in the original survey.

The initial mailing posed four questions:

1. Is your seminary using computers, especially personal computers, in any aspect of theological education?
2. Is your seminary making microprocessors available for use by students and faculty?
3. Is your seminary planning to use microprocessors in any aspect of theological education in the near future?
4. Does your library use computers for anything other than acquisitions, cataloging, control of periodicals or circulation?

Twenty-nine respondents answered "No" to all questions, while 21 answered "Yes" to all. "Yes" totals were: 1st, 58; 2nd, 36; 3rd, 58; and 4th, 49.

The survey was made in an attempt to discover which seminaries are using computers in instruction. The ambiguity of the first question necessitated a follow-up instrument to clarify which schools are using computers as an aid to teaching.

Only seven of the 49 responses to the second survey indicated a use of computers in instruction, six for Biblical languages and one for pastoral theology. Thirteen schools offer courses or workshops which intend to prepare pastors to use microprocessors in parish work.

The survey clearly demonstrates that there is a great deal of room for creative, imaginative uses for computers in theological education still to be developed.
